Coins Moscow Catalog of USSR and Russian coins 1918-2018 (englisg version/dollar prices)

Preiskatalog

1. Auflage 2018, 192 Seiten, Format 1 4x 20 cm, Text englisch, farbige Abbildungen, Softcover.

- The cheapest yet the fullest catalog on USSR and Russian coins with pictures and information at the same time
- All commemorative coins are accompanied with pictures
- The common and regular issued coins are divided in types. If the type or the design of the coin has been changed, both pictures of both types are represented
- All precious metal coins have information on: weight of the coin, diameter, weight of pure metal, standard of fineness, mintage type, price and other. There are also information on the coin thickness and its edge.
- The catalog is structured in chronological order - from old USSR times to modern Russia
- The catalog includes information on USSR local and special coin issues

- There is information on future coin issues with the estimated price
- The catalog is easy to use because every page has a head title with the name of the chapter you are currently on
- The catalog includes links on our YouTube channel where you can see the actual coins and learn more about them.
