Scott Specialized Catalogue of United Nations Stamps 2023

The 2023 UN Specialized Printed Edition of the Scott Catalogue

The new 2023 Scott Specialized Catalogue of United Nations Stamps is the essential reference work for collectors of United Nations postage stamps and postal history.

Released in May of 2022, the catalog also includes listings and values for first-day covers, inscription blocks, panes and more. Separate sections are included for the Offices in New York, Geneva and Vienna, and U.N. souvenir cards, U.N. Proofs, and U.N. Temporary Executive Authority of West New Guinea, U.N. Transitional Authority in East Timor and U.N. Interim Administration in Kosovo.

This catalog contains all the simplified UN listings from the Essential Volume in which United Nations appears (Volume 1, countries A-B plus US and UN) ... but with greater focus that is only available in specialized listings contained herein.

The additional specialized detail in this volume is born out with additional images of different versions of each stamp. Plus, the UN Specialized includes the following sections, all with specialized detail:

Semi-Postal Stamps
Air Post stamps
Envelopes
Air Post Envelopes and Air Letter Sheets
Postal Cards
Air Post Postal Cards

Simplified listings will continue to be included in the Scott Standard Postage Stamp Catalogue, Vol. 1. New in 2022

The United Nations specialized listings, formerly included in the ever-growing United States Specialized Scott Catalogue, are now instead located within this all-new catalog. The 2023 edition is the inaugural UN Specialized Catalogue, and was released in May of 2022.

UN listings, in either specialized or simplified listings, are available via a variety of Scott Catalogue publications. Learn more about United Nations Scott Catalogues.
