The Euro catalog from Leuchtturm presents a comprehensive representation of all coins, banknotes and official price coins since the introduction of the euro in the respective countries. In addition, the book offers detailed information on the price coins, a summary of all 2-euro commemorative coins and the identification of the cross-border European expenses. The catalog appears annually on December 1st in a new edition in which all coins known until the editorial deadline have been taken into account and that of previous expenditure was adjusted. Colored illustrations that make it easier to find the pieces, its topicality and a favorable price make the work an indispensable reference book for every collector of euro coins.
